

DAIKIN
SPLIT SYSTEM
AIR CONDITIONERS
AND COILS

Today, the air is perfect. Perfect temperature. Perfect humidity. Perfectly clean and fresh, like just after a rainstorm. And the only thing more perfect than this outdoor scenario is that it's all happening inside. Because that's where we work. That's where we play, where we sleep, where we truly live.

And that's why at Daikin, we aim to make the air inside as refreshing as the outside. Better comfort. Better control and efficiency. Better quality. So you can create your own unique ecosystem. And everyday is perfect.

Inside and out.

A GLOBAL LEADER IN HVAC INVESTED IN NORTH AMERICA

Daikin is a global leader of indoor comfort solutions with millions of systems installed throughout the world. Daikin has been improving the comfort of its customers with exceptional products and services for many generations. As a company whose core business is that of heating and cooling homes and buildings, Daikin takes particular focus on the air you live in.

Air is essential to our existence and Daikin's role and responsibility in protecting it continues to expand. Daikin is devoted, with unbridled passion, to overcoming the ever-evolving challenges of the air around us. Leveraging our leading, cutting edge technologies with a holistic focus on performance, reliability, design, aesthetics, air environment, ease of use and efficiency, we create outstanding products and system solutions to realize a comfortable and

sustainable living environment for all people and all regions of the world.

This is Air Intelligence, and this is what Daikin is all about.

The opportunity to experience Daikin's advanced technologies and solutions is now more accessible than ever before. Cementing our corporate mission of being "globally-local", many of the Daikin solutions for residential applications are designed and manufactured at our state of the art production facility on the outskirts of Houston, TX. The Daikin Texas Technology Park is a sprawling campus covering more than 4 million sq. ft. and employing more than 4,000 staff. The facility practices Daikin's philosophy of a full 360 degree focus to R&D, Manufacturing Quality & Reliability, Robust sales networks and extensive support infrastructure.

DAIKIN INTRODUCTION
VIDEO ON YOUTUBE!

<https://youtu.be/dGVkDFAc4-M>

Daikin prides itself on its specialist focus to heating and cooling and extends this pride to a meticulous commitment to the design, operation, performance and reliability of all its systems and solutions, including the key components inside those systems. Daikin designs and manufactures many of the components that make up our systems — including the heat exchangers, coils, sheet metal parts, fan blades, and the heart of the system — the Inverter-driven, variable speed compressor*.

Efficient and dependable compressors for worry-free comfort

Daikin's variable speed Inverter compressor* technology is currently providing energy efficient indoor comfort with over 50 million units installed worldwide. This proven technology automatically adjusts the performance of the system's compressor to match the demand needed to achieve the temperature you have selected on the thermostat. It is like having cruise control for your home's indoor comfort. Precise adjustments are being made automatically with the goal of providing the most consistent comfort at the lowest possible level of energy consumption. Compare this to a single speed compressor and immediately you'll see the benefits of the Inverter technology compressor. Daikin designs, engineers, and manufactures its own variable speed Inverter compressors. Rest assured that you are getting a proven design — you are getting Daikin Inside.

*On select models.

Elevate your expectations and get more out of your home's indoor comfort system performance

As you think about the functionality of your home's indoor comfort system, the Daikin portfolio of solutions is ready to help you achieve control, energy efficiency and long-term peace of mind. Take that attention to quality one step further by considering a state of the art Daikin brand variable-speed, energy-efficient system. We have designed and engineered all of our products to provide years of consistent indoor comfort — delivering you and your family the type of comfort you never thought possible.

Bold performance

A better understanding of how people inhabit their living spaces and make lifestyle choices has led to products designed to create indoor environments that help use energy resources more effectively.

A Daikin air conditioner with a variable speed compressor provides efficient and economical cooling performance. Enhance the efficiency of your system year round by combining your Daikin air conditioner with a Daikin cooling coil and high-efficiency gas furnace for the cold winter months. For replacement or new construction, a Daikin system will provide efficient comfort to your family for years to come.

COMFORT-ENHANCING FEATURES THAT HELP DELIVER BETTER COMFORT

PREMIUM SPLIT-SYSTEM FEATURES

1 Daikin Inside variable-speed compressor

– Provides up to 24.5 SEER cooling performance for lower energy bills compared to lower SEER, single-stage compressors.

2 Refrigeration-grade premium copper tubing and aluminum fin condenser coil configuration

deliver outstanding heat transfer properties with R-410A refrigerant.

3 Heavy-gauge galvanized steel enclosure with sound-control top

– Baked enamel finish protects your system from the elements.

4 High-efficiency ECM fan motor

with advanced fan design moves air quickly and quietly.

5 High-density compressor sound blanket

– Acoustically engineered sound isolation reduces noise levels (compared to units without a sound blanket) for years of quiet comfort.

6 Communicating Compatible

– Improve your home comfort convenience with more control options and communicating thermostats with touchscreen interface.

7 Daikin Inside Intelligence

– Sophisticated diagnostics constantly monitor your AC system pinpointing trouble spots for a fast fix.

8 Commercial grade quality with factory-installed refrigerant management components

– Provides high reliability compared to units without these components.

ADD EXPERT CONTROL FOR YOUR EASE OF USE

The ComfortNet™ brand programmable or non-programmable touch-screen high-definition digital control for residential and light commercial applications works with our Daikin brand ComfortNet-ready heating and cooling systems.

Programming

- » Seven-day programmable system
- » Auto heat / cool change-over option: automatically switches between heating and cooling modes
- » Customizable home screen
- » Dehumidification control
- » Independent humidification control
- » Airflow speed trimming adjustment
- » Intuitive installer menus
- » Four steps per daily schedule sequence
- » Simultaneous heat and cool program storage
- » Energy Management Recovery program (EMR)
- » Program-loss, start-up temperature

PREMIUM COIL FEATURES

1 All-aluminum coils – Enhanced durability in a single metal solution. Special grooved tubing provides efficient cooling and durability for long-lasting comfort.

2 Factory-mounted thermal expansion valve (TXV/EEV) – Simplifies installation and controls refrigerant flow for efficient cooling (Model CAPT).

3 High-temperature thermoplastic drain pan – Handles condensate for years without rusting.

4 Insulated metal casing protects the coil from damage and provides for easy installation to the air handler.

Here's a Review from One of Our Most Important Critics:

"I am extremely happy with our new Daikin Air Conditioner! The temperature remains consistent throughout the house (3 levels). I did a lot of research about air conditioners and Daikin Air Conditioners are hands down the best. Customer Service is absolutely great!!! We have had several people over to look at the air conditioner and they can't believe how nice it is. Highly recommend!"

— Gigi, South Bend, IN
